

**Did you know...**

**95% of breaches and 86% of security incidents fall into nine predictable patterns?**

**63% of confirmed data breaches involve using weak, default or stolen passwords?**

**Any company - big or small - global to Mom & Pops - Anyone who uses technology within their business can be liable for costs incurred by customers and other third parties as a result of a cyber attack or other IT-related incident. A simple desktop or laptop that contains Personal Identifiable Information about others can be a target and place you at risk.**

**A recent survey suggested that 47% of those interviewed said the business environment is becoming riskier and riskier as the days move on.**

**Basic awareness and defenses are lacking in most organizations.**

**Cyber Liability Insurance - Have You Protected Your Assets from this growing and tremendous risk?**

**Call or email Donna today!**

Best regards and appreciation of your time,

Sincerely,  
Donna M. Ford, ARM, AIS, CISR
